Wasp
BARCODE TECHNOLOGIES

MobileAsset
Complete Asset Management Solutions

*Looking for a more efficient way to
track your company's valuable assets?*

Wasp Barcode Technologies

MobileAsset

Easily track valuable organizational and IT assets, including computers, furniture, medical equipment, tools, and vehicles, with Wasp MobileAsset. MobileAsset allows your business to eliminate wasted time spent looking for lost or missing assets and reduce expenses due to equipment loss.

With MobileAsset, managing your organization's assets is simple and efficient. MobileAsset captures important information about each asset, including location, check-in and check-out, due-date, due-time, maintenance schedule, and transactional history. Warranty contracts, user manuals, and other important documentation can be attached to asset records for quick reference. Customize up to 20 additional data fields to ensure the right fit for your environment.
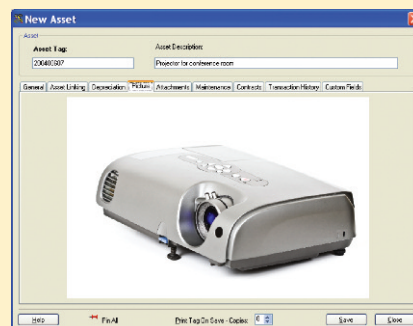

MobileAsset offers advanced asset management features, in an intuitive, easy-to-use format. Built-in tools like the Import Wizard make it effortless to import asset data from external sources. Multiple asset records can be updated immediately using the mass update feature. MobileAsset's integrated barcode labeling software allows you to design standard or customized asset tags quickly and conveniently. Instantly accessible management reports keep the data you need at your fingertips – from asset maintenance and audit history to check-out records and depreciation.

MobileAsset is the ideal asset-management solution for:

- Healthcare and medical providers
- Educational institutions
- Small to mid-sized companies
- Government agencies
- Non-profit organizations
- Legal and accounting firms

▶ Navigate MobileAsset using the intuitively-designed interface

▶ Attach photos or contracts to an asset record for quick reference

▶ Establish a maintenance schedule and review asset maintenance history

Rely on MobileAsset to help you manage your organization's assets with ease.

:: BENEFITS

▶ Know which assets your company owns and who has each item

▶ Track the cost, depreciation, and maintenance of your assets

▶ Eliminate wasted time spent searching for lost or misplaced assets

▶ Reduce unnecessary expenses to replace lost equipment

▶ Easily audit your organization's assets on your PC or mobile computer

▶ Extend the useful life of assets by implementing a maintenance schedule

MobileAsset Web Module
Manage assets from any PC

The MobileAsset Web Module gives your business the flexibility to manage valuable assets from any PC – without time-consuming software installation! Use the Web Module to complete common tasks, including asset creation, check-in and out, and disposal. Rapidly access asset data in lists and reports from anywhere in your organization's network.

Interested in reserving an asset for use? The MobileAsset Web Module makes it easy to create an asset reservation, view asset availability, or approve of a reservation request. Reservations are available exclusively in the MobileAsset Web Module!
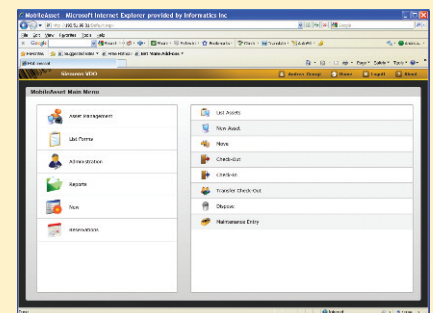

Features:

• Create new assets, locations, manufacturers and more

• Check assets in or out

• Transfer a checked-out asset

• Move, dispose of, or reserve an asset

• Record asset maintenance

• Pin asset fields to speed asset creation

• Attach pictures, warranties, and other important documentation to asset records

• Access lists including:

    - Assets   - Depreciation classes

    - Asset types   - Locations

    - Contracts/licenses   - Sites

    - Customers

• View reports on asset maintenance, asset depreciation, check-out history, & more

• Rapidly locate items using the Quick Search feature

• Set up printers and print asset tags

• Automatically log-out idle users

MobileAsset Pro Web Module (requires MobileAsset v6 Pro)
Includes 5 concurrent web licenses • Part Number: **633808341503**

MobileAsset Enterprise Web Module (requires MobileAsset v6 Enterprise)
Includes unlimited concurrent web licenses • Part Number: **633808341510**

▶ Easy-to-navigate design

▶ Reserve assets and view asset availability

▶ Rapidly search lists with Quick Search feature
